ANNOUNCEMENT No. 4

The Organizing Committee of the XIV International Symposium “**Microelements in agriculture and environment**” planned to be held on **23rd – 26th June 2020** in Polanica Zdrój, Poland, informs that we had to make the difficult decision of postponing our event due to the COVID-19 pandemic. Our main concern is the health and well-being of everybody involved, so we believe we cannot in good conscience proceed with the original dates for the conference.

Instead, we decided to push the dates to **22nd – 25th June 2021**, in **HOTEL NOWY ZDRÓJ - Centrum Zdrowia i Wypoczynku**, ul. Zdrojowa 34a, 57-320 Polanica Zdrój, www.nowyzdroj.pl/, tel. +48 74 3067676.

Please, be also informed that the registration of participants is still open and available via the website www.mikroelementy.eu

- abstracts for the poster and oral presentations should be submitted in accordance with the template attached to the announcement no. 3
- all registrations and fees already paid remain valid

We hope everyone will still be able to attend the conference in June 2021, we will keep you posted should any further changes occur. During this difficult time, the Committee wishes everyone a lot of health, looking forward to see you next year.
